

We are the greenest multilateral development bank (MDB) working with the private sector*

Our goal

At IDB Invest, member of the Inter-American Development Bank (IDB) Group, we are committed to endorse the goal of increasing the financing of climate change related projects in Latin America and the Caribbean to **30%** of the IDB Group combined total approvals of loans, guarantees, investment grants, technical cooperation and equity operations by **2020**.

An overview of climate finance investment in 2016

IDB Group is one of the leaders of the MDBs investing in climate finance according to the Joint Report on MDBs' Climate Finance. In particular, IDB Invest was the greenest with 35% of its projects classified as climate finance.

*The IDB Group is a leader among the MDBs with the highest green to brown ratio and the lowest of fossil finance as proportion of total spend.

MDB climate finance as a percentage of total MDB operations
